

EVERGREEN LINE

SPECIAL ANNOUNCEMENT

NEW EU CUSTOMS SECURITY AND SAFETY PROGRAM – ICS2 EVERGREEN LIVE DATE OCTOBER 15, 2024

September 17, 2024

Dear Valued Customer,

We would like to update you on the upcoming implementation of the European Union's Import Control System 2 (ICS2), which is scheduled to go live on June 3, 2024. Evergreen has been approved a later deployment window by the National Customs Authority and will initiate lodging Entry Summary Declarations (ENS) into ICS2 starting **October 15, 2024**.

Under these new regulations, a mandatory risk assessment must be conducted within 24 hours upon receipt of ENS filing via Customs system (Shared Trader Interface, STI). There are two scenarios for ICS2 filing:

- (1) Complete (Single) ENS Filing: Carrier submits ENS filing with complete data, including seller/buyer or house level information given by shipper.
- (2) Multiple ENS Filing: Customer (self-filer or house level filer) must declare ENS with complete seller/buyer or house level information, and the EORI number of supplementary declarant (house level filer) should be provided to Carrier.

To ensure full compliance with the new ICS2 requirements and timely processing of ENS filing, please ensure that [shipping instructions with comprehensive information about the goods are provided by the documentation cut-off date/time](#). The following necessary ENS data elements are required to be included as part of the shipping instructions:

- A detailed and accurate commercial description of the goods.
- 6-digit Harmonized Commodity Code.
- EORI number of the consignee (for EU shipments only).
- Complete address of the consignee, including P.O. Box Number, Postal Code, and Sub-division Code.
- Identification (EORI number) of the supplementary declarant (self-filer).
- Buyer and Seller information, as well as house-level details for EU-bound cargo if the filing is via Evergreen.
- CUS code for chemical substances, if applicable, as maintained in the ECICS/European Customs Inventory of Chemical Substances.

For more details of ICS2 Release 3, you may visit EU website https://taxation-customs.ec.europa.eu/customs-4/customs-security/import-control-system-2-ics2-0_en

Should you have any questions, please feel free to contact your local Evergreen representatives.

Thank you for your attention and understanding.
