## Customer Advisory

# Update regarding potential strike at Vancouver port by ILWU Canada

**May 28, 2019 16:00 (Pacific Time)**

Dear Valued Evergreen Customers:

The following is an update to our advisory of May 24, 2019.

BCMEA has now issued a press release which advises as follows:

*“The British Columbia Maritime Employers Association (BCMEA) provided formal notice today to the International Longshore and Warehouse Union – Canada (ILWU – Canada) of its intention, given the strike action that is occurring in the industry, that customer members of the Association will lockout all longshore employees covered by the expired BCMEA / ILWU – Canada collective agreement effective 0800, May 30, 2019.”*

In light of this information and to avoid significant disruptions, we are strongly encouraging all customers to pick up and return shipments as soon as possible.

Evergreen is closely monitoring this situation and will do our best to keep all customers apprised of any pertinent developments.

Please contact your local Evergreen office with any questions or concerns you may have.

We thank you for your understanding and continued support.

Sincerely,  
Evergreen Shipping Agency (America) Corporation
