TERMINAL OPERATIONS

TERMINAL OPERATIONS AT THE PORT OF OAKLAND

July 21, 2026

Dear Valued Evergreen Customer,

Please be advised that labor activities have temporarily affected operations at terminals throughout the port of Oakland, California. Based on the latest operational information available, second shift (night gate) operations are expected to proceed as scheduled.

All customers and motor carriers are strongly encouraged to verify terminal status and appointment availability before dispatching drivers to the port.

Evergreen is maintaining close communication with our terminal and operating partners and will provide additional updates as operational conditions become clearer.

If you have any questions, please contact your Evergreen Sales Representative. A comprehensive contact list can be found by visiting <https://www.evergreen-shipping.us/egsweb/jsp/officelist.jsp>

Thank you for your business and continued support.
